Teri Seits's Story of Chris

I am so very proud of my son Chris. Yesterday, after meeting with many Loma Linda University Hospital staff, and in spite of mom's pleading for an immediate surgery date, the surgeon stood firm that mid-November was the earliest he could schedule the operation. THEN Chris started talking! The surgeon agreed to move up the surgery to October 29, 2012. This mama loves that my son was his own best advocate. God uses the weak to humble the proud.

There was a lot more damage than they anticipated. Things are starting off a bit rocky this morning. Chris' pain has increased and his lung functions are decreasing.
